

## The Five Teaching Goals of Bartlett Baptist Kindergarten & Preschool

1. Spiritually: Through the concept of God, we strive we teach love, wisdom, knowledge, and friendship.
  2. Emotionally: We encourage children to gradually mature in wholesome expressions of emotional reactions, face and overcome emotional problems, build a healthy self-concept, and develop self-reliance.
  3. Intellectually: Our goal is to strengthen independent thinking and broaden ranges of interest. We also strive to increase attention span, develop language powers, grow in the ability to concentrate, improve skills, and develop creative abilities.
  4. Physically: We encourage children to enjoy participating in a variety of indoor and outdoor activities and quiet and active experiences. We want children to develop motor skills, establish desirable health habits, and know and follow simple safety rules.
  5. Socially: Our goal is to teach children to grow in their ability to work and play with each other, respect personal and property rights of others, and accept appropriate individual and social responsibility within a group. We also encourage the development of attitudes of kindness, cooperation, courtesy, and helpfulness toward others.
