

## Check -In for Nursery through Kindergarten

### **Parents**

When you arrive please check-in at the Welcome Desk. This is a self-serve check in system with two steps:

1. Take a wristband. This is for you, the parent.
2. Record the wrist band number and child's name on a nametag for your child(ren). For multiple children you will take only one wristband and use the same number on each nametag. If you would like to keep the same number from week to week you may do so, just make sure you record the correct number on the child's nametag

If your child needs attention during a service you will see an alert on the screen in the sanctuary and mother's room. If you see your number please report to your child's classroom.
