

CAMP-of-the-WOODS Capital Projects

to be completed by Summer 2011

TIBBITTS EXTERIOR: Our key worship facility, located in the center of Camp, is receiving a new stone facade around the front exterior, as well as new vinyl siding.

Cherokee A received major renovation work for Summer 2010 and will now be shifted slightly and brought down closer to the road, providing easier accessibility.

We are happy to announce that Cherokee C, a staff housing unit in 2010, will be fully renovated and available as a two-bedroom accommodation for guests in 2011.

Cherokee B is in the process of a complete interior renovation with pine siding and a new bathroom.

ZEITFUSS LODGE: Wood paneling is being added to the main hallway and stairwell to eliminate the need for ongoing patching & painting caused by the high use of this building.

NEW SEWER & WATER LINES

A new sewer line will run from the Nursery down to Chippewa F at the Point. A new water line will be built from Buirkle to the end of Seneca. The map below depicts the approximate locations. The red line is representative of the sewer pipe while the blue line is representative of the water pipe.

OTHER PROJECTS

- Installation of the Sonju Sports Complex elevator
- Vehicle replacement
- Computer upgrades
