February 2014

The great thing about being involved in missions, is seeing how God changes lives through a personal relationship with His Son and then how He equips and prepares them for great things. I am overwhelmed when I think of how God has called out two of our families to be missionaries. Both families are in their third year on the field. One family in the country of Panama and the other in the jungle of Ecuador.

Nine of us from Ecuador took a trip to Panama last month to see our missionaries, William and Jacqueline, and to help out in Vacation Bible School in a new area called Pacora.

God is not only doing great things in the main church, Life Baptist, but also opening doors for a new work. We saw 67 adults, young people and children receive Christ as their Savior in the 3 days of VBS. The follow up the past few weeks has continued to produce fruit and show that God is opening doors there. Pray as they look for a place to meet on a permanent basis.

Sherri and I are heading to the jungle to be with our missionaries Paulo and Maria. During the next 2 weeks we will be teaching in two seminars, celebrating the churches 3<sup>rd</sup> anniversary, and looking in on the construction. The columns have been poured and the 20<sup>th</sup> of March we will pour the second floor! Pray also that the Lord will continue to supply the funds needed to complete the building by summer.

I read this the other day, "Mission work is the feet of those that go, the knees of those that pray, and the hands of those that give." Together we are getting the job done! Gracias!

In His Service,

*Glenn*
