

Transforming Cities by Transforming Lives

CFCI is made up of people a lot like yourself and offers the opportunity of a lifetime, the chance to serve people in Christ-like love, to cross borders, to discover new friends, to learn new cultures, to stretch your knowledge and perhaps, even to find yourself!

CFCI's mission is to go into cities and work side-by-side with local educational, church and business entities to transform cities.

We do this by determining the greatest needs of each individual city and working to meet those needs. In each country we serve under the leadership of nationals, working alongside them.

We are working with poor people in their community to make life better; working with refugees, the homeless and orphans; or providing leadership development for the local church.

As God works through you, you will discover that He has drawn you to new depths of intimacy and growth in your relationship with Him.
