

No Person Without Hope

In a rapidly urbanizing world, a local caring church can impact their city; they are like an island of Hope. They stand out like beacons on a turbulent sea. They are life-giving, living out the promises of new life in Jesus Christ, right in the middle of some of the toughest neighborhoods in the world.

They are reaching people with God's love by not only preaching grace, but doing justice. They are bringing the healing power of Christ, one person at a time.

Key components are working alongside the poor, not to or for them. Helping them solve their own self-identified problems and training local leaders. Always the Nationals are in charge; North Americans are servants.
