## About our Family

Thank you for getting to know us. We are an active happy couple desiring to complete our family through open adoption. We have been married for over 15 years and have known each other for more than 20. We enjoy spending time with family and friends. Traveling is a great passion of ours, we love the adventure & enjoy going to the mountains & beach.

We look forward to the day we meet our child. We have so much love to give in a home that is built on family, friendship and love. We appreciate being considered for such a selfless act. If you choose to allow us to raise your child, know that he or she will be raised in a loving home.
