

TERRY BENNETT PROPHECY OVER GT - 05-14-2011

I believe there's some very specific things that the Lord has marked out for GT for the people, you the people of God that are here and I just want to share them as quickly as I can

There were basically 8 things

1. I felt the the Lord said this to me that the Fear of the Lord would be established within this work followed by the glorious wisdom of God. And that wisdom will become engrained widespread in the body. In this wisdom the elements of discovery, innovativeness, inventions and creative creativity will be manifested and you will become a storehouse because of the fear of the Lord - treasured storehouse of wisdom.
2. The fear and the wisdom of the Lord will be followed by a powerful release of His presence. The Lord's presence among you shall be such that in moments of kindness His form shall appear, the cloud of His presence shall be seen and thunder shall be heard.
3. The voice of the Lord will ring out and pour forth like a powerful river. It will bring life, freshness of hope, purpose and healing to many. This healing is a part of your inheritance. But the fear of the Lord must proceed this release if the Lord's full glory is to be shown forth. You'll be like a "MASH Unit" in military language.
4. You will become a strategic operations center in this region, a hub, like a railway center of divine stability, rest, and recuperation.
5. Because of the Lord's love and kindheartedness, your enemies shall come and bow down and acknowledge the Lord and the Lord within you.
6. The Lord spoke to me about a change in the culture of the body. Jim Daur had a vision that coincided with this concerning Mikhail Gorbachev and the cultural change that he brought to the Soviet Union. You guys can unpack more of that as you desire.
7. Also I felt very strongly from the Lord that Boaz' fields must come into your hands so that you'll be ready for the Ruth's to glean - that meant provision, purpose, and deliverance. And I saw land - I've never been here but it was in the north of the city - which I guess is where we're at. This is a fortress of hope.
8. And then I've saved this best for the last here - Cheryl , talking about you, she'll lead the women, and they will be women of light, and they will go forth to places of darkness and hopelessness and the power of God's life, light, and the Gospel of Christ the healer shall be heard again. Cheryl is a "Mary" pronouncing Christ, the resurrection, to strangers and to the brothers. An Aimee Semple McPherson dynamic is on her and for her and I actually heard this, Cheryl, honestly I it just sounded too grandiose but the Lord kept going back and forth between Aimee Semple McPherson and Katherine Kuhlman. It was that kind of dynamic that the Lord kept giving me...

So those were the things that I felt the Lord said about the body here and I hope I have given tonight as well just a little bit of understanding of what it takes to get there which is the ground being broken that we are.
