A minimum number of children must be enrolled for the 5-day program to be held.
- ❖ If you have any question on the programs see Debbi.

A summer Enrichment program will benefit your child in many ways!

1. The retention of the skills they have learned this year will be greater.
2. You and your child will maintain your schedule over the summer and be ready for school in the fall.

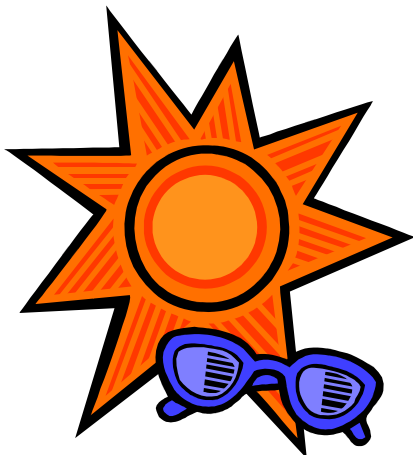

3. Your child will learn additional skills over the summer to help prepare them to enter preschool or kindergarten ready to learn and be successful.
4. No more “MOM, I’m Bored!” or “What can I do, now?” We have planned for lots of fun outside units that will incorporate play and learning every day! We will include table time, outside time, science and exploration, art expression, gardening, and so much more!
5. The classroom will continue to have a balance of teacher instruction and child directed activities.
6. This will be a fun experience for preschoolers, created for them and designed to make learning fun all summer!

We will begin to take registration for the summer programs on April 10th. Space is limited to 20 for the 3-day program and 12 for the 5-day program.

You may enroll for one or both months.

Please contact Debbi Rogers with any questions at 825-5170

There is a \$20.00 registration fee per child.
