Because the flowers are doing so good and the weather is nice we decided to extend the watering season a few more weeks. As long as the weather permits we'll be caring for the things listed. If we get rain it's possible that the things listed will not need to be watered, use you best judgement & all should be fine. Because this is last minute let me know if this is not going to work out for you. I appreciate your help.

Ms. Datsy
