

Cornerstone Foundation Bermuda REPORT of our First Relief Mission into Haiti – January 27 to February 6, 2010 PART 1

A team of Bermuda doctors and volunteers have just returned to the Island this weekend, February 6, 2010 from earthquake-ravaged Haiti. The pioneering relief effort was led by local charity the Cornerstone Foundation Bermuda (CF) in conjunction with U.S. medical aid organization Angel Wings International (AWI), a team of qualified trained medical professionals including general practitioners, surgeons, pediatricians, gynecologists, and French-Creole speaking nurses.

We want to thank-you very much for your donation to the first stage of the Rescue Haiti mission.

What has been accomplished so far because of your giving:

Personnel

- Sponsored a charter flight to bring in 69 aid workers and supplies: CF 18, including doctors, structural engineer Bruce Perinchief from Entech, RN Nicole Jackson, Dr. Greg Bernius, Dr. Ken Garfield-Douglas, podiatrist, Stuart McIntosh and various skilled volunteers; AWI 23 including doctors and Haitian nurses and an additional 28 including construction workers, structural engineers, doctors and nurses from Mini-Clinic Doctors, Fishers of Men, Reciprocal Ministries International (RMI) and C-Relief;
- Sponsored 2 additional cargo flights for a total of 85,000 lbs of relief – 40,000 lbs –medication, supplies and related materials ; 45,000 lbs of food (over 30,000 lbs donated by Butterfield and Vallis)

Feeding Programs/tents

- We have been able to supply food to 2 feeding centers: over 110 gallons of cooking oil, 7,000 lbs of rice, 3,000 lbs of beans, 2,000 lbs of tuna, 100 boxes of macaroni, cans of sardines and bottled water.
Jacmel – 220 children x 7 days per week= 1,540 meals
Port-au-Prince (PAP) – 300 children x 5 days per week = 1,500 meals
Total – 3,040 meals per week for the next 2.5 months
- Donated 2 police officers for 12 months 24 hours per day to guard food donated to feeding program;

- Supplied tents, inflatable mattresses and lanterns for displaced families in Delmas, PAP.

Medical

- Bruce Perinchief, Structural Engineer of Entech Limited was able to assess buildings in Jacmel and PAP. AWI able to use 1 building as clinic/hospital in Jacmel.
- Jacmel clinic 60 - 100 patients seen per day conducting life saving operations and preventative care.
- AWI and CF building permanent clinic/hospital in PAP. Team from Bermuda did framing, dry wall, electrical, plumbing for operating room, recovery area, emergency room and 'ward' area.
- CF donated over 1,000 labor hours and employed Haitian nationals for a total of over 600 hours to help the local economy.
- Offloaded supplies and organized by categories- medical, clothing, food, personal hygiene into the warehouse attached to PAP clinic/hospital.
- Medical supplies sent to 2 child feeding centers to service over 600 children
- Children's programs included puppets, crafts, coloring (adults joined in - to assist with post-traumatic stress disorder - (PTSD) and debriefing interviews were conducted.)

Next Steps

- Reconstruction of homes in the ravines (ravines are in the valleys of the mountains that house the poorest of the poor). We will need a pre-construction team to gather supplies (secure location in PAP) - \$25,000;
- Coordinate receipt of CF cargo presently in Florida into PAP. To date we have over 15,000 lbs of donated supplies in our CF warehouse.
- Planning 3 more trips into Haiti; personnel to include nurses, doctors, construction workers. We have 40 volunteers on standby in Bermuda ready to travel to serve the Haitian people.
- Cargo shipment of food, water, construction and medical supplies - to supply PAP hospital and nearby refugee camp, Jacmel feeding program - \$50,000
- While in PAP we will conduct a medical day clinic for the displacement camp of Delmas. We will also set up a debriefing center at the PAP refugee camp for post-traumatic stress disorder which is a common occurrence.

GIVING RESULTS... WHAT WAS DONE... WHAT IS STILL GOING ON...

As a picture is worth 1,000 words. Join us as we invite you to share in some of the highlights of this trip made possible by your generosity.

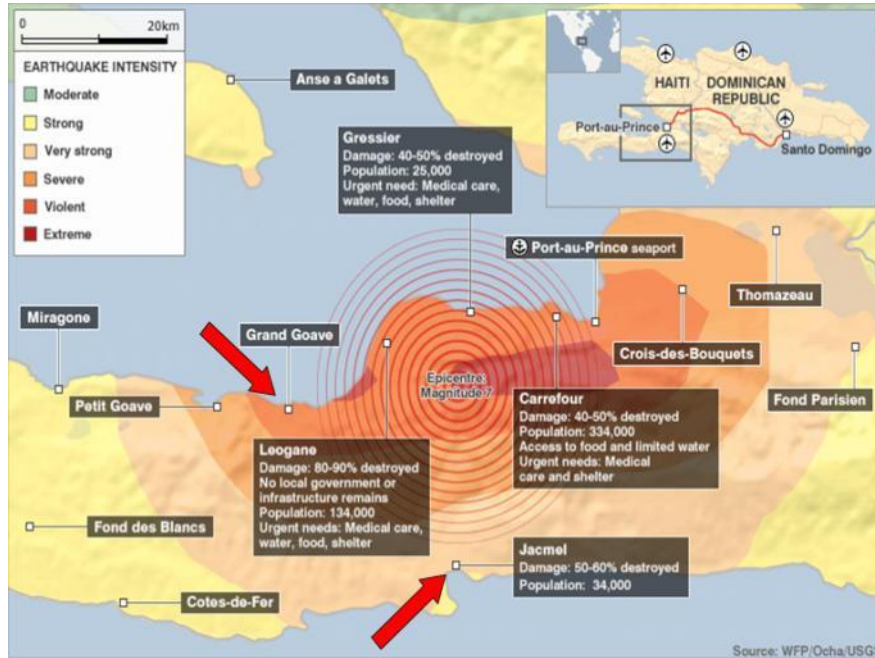

The team arrived safely in Port-au-Prince Haiti and promptly proceeded to unload the plane of supplies that were on board. The 2nd plane carrying the bulk of the medical supplies and equipment follows.

PUTTING Compassion in Action by joining hands to heart
