Deer Flat response to Haiti

Deer Flat has been and will continue to be deeply committed to Haiti, whether it is supporting our medical missionary – Dr. Dan Snyder, our hospital in Dessalines, drilling wells with Clear Blue, reforestation through The Eden Projects, or resourcing our Haitian pastors and churches.

On January 25th, Vahan Sipantzi (from our Deer Flat family) left for Haiti as a part of an advance team to help in organizing relief and rebuilding efforts. Please continue to pray for Vahan and this team as they lay out a strategic plan for the teams that will follow them and begin the rebuilding efforts.

Our Missions Guidance Board met on January 26th. We are making preliminary plans to send teams in to Haiti as soon as possible. Our current plan is for our Deer Flat teams to give priority to the needs of the hospital in Dessalines. We will let you know as soon as we have more specific information.

Please contact the office if you would like more information about joining one of our teams. In addition, please continue to give as the Lord prompts your heart toward the Haiti relief and rebuilding efforts. Every dollar you give to Deer Flat will be forwarded to this effort without any administrative costs or deductions.
