

# **ENTERING THE KINGDOM OF GOD**

## **MATTHEW 13: 3-9**

Introduction:

Jesus embodied the lessons of the kingdom in parables. He took the simple things of earth—like sowing and reaping—and used them to illustrate the profound realities of the kingdom of God. Each of the parables reveals a different aspect of the truth of kingdom life.

Why did He use parables? He used parables to get our attention, and to clarify the truth. He was not attempting to hide the truth from us, but rather to open our ears and eyes to the truth.

He began with a story that helps us understand how one enters the kingdom of God. How do you actually come under the rule of God and begin to experience the victorious life of the kingdom? Jesus said, “Watch a sower sow his seed, but particularly pay attention to how the soil responds to the seed!”
