We have been doing business with Mark Hawks and DISC for over six years. The equipment, the maintenance service and the personnel are top notch. Because of what they have to offer, we lease all of our printers (6) and a copier (which does everything and it is awesome). The service they provide is unbelievable. They stay on top of things and provide us with everything we need for our equipment except the paper we use and they do it in a very timely manner. Our phone calls are promptly answered and if it cannot be solved over the phone, they are here in our office fixing it or showing us how to properly use the machine.

THANK YOU very much! We appreciate doing business with DISC and Mark!!:))
