

Leadership and Women in Ministry

Devising a recommended list for women to develop their gifts and skills in leadership is a challenging one. New books are published monthly that address the areas of leadership and women in ministry. The following books are recommended to see what others have contributed to the ongoing discussion on women in leadership. Whether you agree with the authors' perspectives or not, these books are suggested to create thoughtful discussion and skill development on the topic. As you will see, the books are not always unique to only women serving in leadership roles. Please select and read these titles with the desire to be challenged to grow in your own area of leadership where you serve.
