

Faith Christian Academy
2017-2018
Medical Health Form

Student Name: _____ **DOB:** ____/____/____

Immunizations

FCA must comply with Arizona state law regarding immunizations for school children. Parents are required to submit the most recent copy of their child's immunization records or to have an Exemption Form on record at the school. For returning students, the Emergency Information and Immunization Record Card must be updated on a yearly basis.

Communicable Diseases

FCA and the Pima County Health Department (AZ Admin. Code R9-6-203) require that certain communicable diseases are tracked and reported. Please report the following to the school office.

Campylobacteriosis	Measles	Outbreak of Pink Eye	Pertussis/Whooping Cough
Crypto	Mumps	Outbreak of Scabies	Shigellosis
Salmonellosis	Rubella	Chickenpox	Hepatitis A
Streptococcal Group A	E. coli	Haemophilus influenza	Invasive Disease

Fever > 100 with Diarrhea, nausea, or vomiting
Meningococcal invasive disease (bacterial)

Medications

If it is necessary for a student to take ANY medication during school hours, Arizona Law requires parents to take the medicine to the office and complete a "Medication Release Form" (available at the school office). All medications must be in their original containers; prescription medications must have the pharmacy label. No medication can be administered without written permission and instruction from a parent.

Students are NOT allowed to have ANY medications in their possession during school hours with the exception of inhalers and EpiPens.

Illness or Injury

If a student becomes too ill to attend class or is injured, a parent will be notified. Because FCA does not have health care professionals on staff, only basic first aid will be given. **FCA MUST be notified of any change in address or phone number, including unlisted numbers**, so that contact can be made immediately in case of an emergency.

In the event of illness, please DO NOT send a sick child to school. DO NOT send a child to school for diagnosis of an illness. Students who have been ill with a fever (any fever over 99.0°F may NOT return to school until their temperature has remained normal for 24 hours (unless directed otherwise by a doctor) without the use of fever reducing medications. Normal range is considered to be "97°F (36.1°C) to 99°F (37.2°C)" *

(over)

Serious/Chronic Conditions

FCA is willing to accept students with serious illnesses or chronic conditions (such as asthma, allergies, diabetes, attention disorders, heart disorders, leukemia, etc.) provided that:

1. The condition has been brought to the attention of the administrator upon submitting an application for admission or upon diagnosis once the student is enrolled.
2. FCA is able to meet the physical and/or educational needs of the student within the established program of the school.
3. The child is under the care of a physician.
4. The parents are willing to remain in close communication with the school regarding needs and changes in the student’s condition.
5. The parents work with the administration in creating a “care plan” for the student and those involved with the child in caring for his/her special needs.

I have read and agree to these policies.
