

Dear Pastor Kelley,

Greetings from Madrid, Spain!

We need you! The work we are involved in with International Media Ministries and ONTHEREDBOX is changing lives!

At IMM, we do maintenance, administration, organization, create props for films, make up, transportation and more. This summer we helped with the production of Bathsheba, a life restored. It was powerful to feel God's presence as we worked with actors and recorded the story. We were able to show the love of Christ to many of the actors who did not know Jesus. When the film is done that same love and the hope of redemption in Jesus will go to millions of homes in the Middle East, North Africa, Eurasia and Europe. IMM sends evangelistic films where missionaries cannot go!

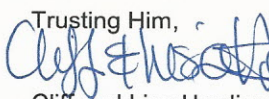

ONTHEREDBOX is an evangelistic ministry using illustrated sermons and testimonies live on the street. We stand on a box speaking God's truth right in the heart of Madrid, in Puerta del Sol where 120,000 people pass through every day! Spain is only 0.4% evangelical! They desperately need to hear the gospel. ONTHEREDBOX is experiencing amazing moves of God. Healings, salvations, deliverances and more are all happening on the streets of Madrid!

In addition, we:

- work and serve in the International Church Madrid.
- Lisa teaches 2 days a week at the mission school, Evangelical Christian Academy.

We are busy! We believe God has brought us here for such a time as this. **Without an infusion to our budget we will need to go back to the US soon.** But God is powerful and he is able to provide! Pray with us about the need.

Please consider making a monthly commitment or increasing your monthly pledge to help keep us here in Spain! The needs are great and we are here to serve the field and to be your partners at work in Europe and beyond!

Trusting Him,  
  
 Cliff and Lisa Harding
