Chi Alpha Campus Ministries Reconciling students to Christ

April 2018

Season of Preparation

Challenging, rewarding, transforming, empowering: These are just a few adjectives that describe our time here at UTSA. Before coming to San Antonio, we believed that God wanted to use this year as a time of preparation and growth in our lives. It has definitely been that. We've never felt more energized about reaching and discipling students.

Staff Team

In our last email newsletter, we mentioned sharing our vision for Auburn Chi Alpha with the staff and interns at UTSA. We asked them to prayerfully consider joining our pioneer team. Great News: As of right now, we have one young man and one young lady from UTSA who will be joining us in Auburn. In addition, two more young ladies from other internships also feel led to join our team. We look forward to introducing them to you in the near future. Thanks to everyone who prayed and believed with us. We are super excited about the team that the Lord is putting together.

What's Next?

Although we have four staff members now committed, we still need about **60 more team members**. That's right. When we move back to Auburn in June, we will begin actively recruiting these new team members. These friends will serve the vital role that many of you already serve, providing prayer covering and financial support so that we can focus on leading students to Christ at Auburn. With the new responsibility of planting and directing a local Chi Alpha ministry, we will need to raise an additional \$4,000 of monthly support. Would you pray with us for God's provision to be swift so that we can get started on campus as soon as possible?

As we reflect back over 16 years of ministry, we can't help but be overwhelmed with gratitude for all of you who have so generously supported us through the years both prayerfully and financially. We love and appreciate you so much.
