A PERSONAL RECOMMENDATION

A few weeks ago, a pastor we met made a decision to recommend us to some others in his network of friends and associates.

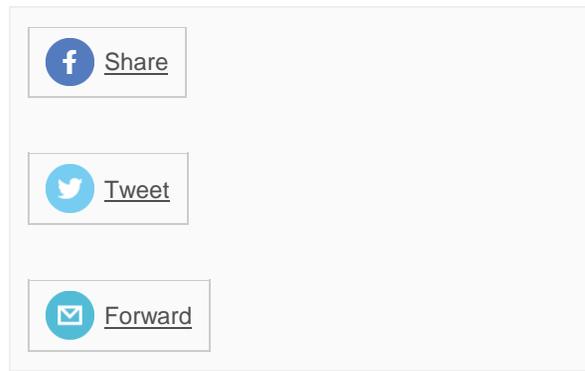

Following his recommendation, we gained several new commitments for financial support in a short 24 hour period. It made a difference. Here are three reasons why:

3 Reasons Why Your Voice Makes A Difference

[DONATE](#)

If you know us and already support us, would you consider forwarding this email to a friend with your recommendation?

1. **Influence.** Your voice has influence within your network. No matter what I do, I will never duplicate the power of your voice within your network.
2. **Exposure.** When you make a recommendation, you are introducing others to an option of which they may otherwise not be aware.
3. **Credibility.** When someone you trust offers an endorsement, it generates credibility. Most missions givers want to make a wise investment, and they depend on the voice of someone they trust to validate their choices.

Will You Recommend Us?

If you know us and believe in our mission, then we need your influence, exposure, and credibility in your network. It is the only way that we can return to the mission field.

We Need Your Help

1. We tell the story of Jesus in a place with less than 1% born-again Christians
2. We give opportunities for new believers to be a part of a Christian community so that they can worship and grow in their faith
3. I am eagerly anticipating my return to Spain so that we can continue our work of making disciples. If you can help us, please consider making a monthly pledge.
