

August 2018

Another Seminary Year in the Books

This year was extra special as we celebrated 50 years of forming Christian workers at the Seminary. Since its formation in 1968, the seminary moved to several locations until 1996 when it purchased property in La Carlota in the providence of Andalucía, Spain. The interesting thing is La Carlota was a project

city of King Charles III who wanted to have a society of settlers from throughout central Europe in 1767. It “just so happened” that a big majority of these settlers were protestants. Today, 250 years after the birth of this town, the seminary continues the witness of those first settlers who came to bless this land, holding firm the objective to prepare faithful Christian workers to be a blessing for the whole country.

Europe’s Children

Backpacks for Oasis Centre, Spain

As Director’s for Europe’s Children, we’ve been able to help several children outreaches this summer including Macedonia, Austria, Romania, Hungary, Spain and Belgium. What greater way to build the Kingdom than through children!

Projector for Macedonia

Heilo Tour

After an intense school year of teaching, mentoring, renovating the school library, co-pastoring a local church, being on the Spain National Children’s Ministry Department and several Europe interdenominational Children’s Ministry boards, we took the month of July and visited family and friends. It was incredible! The highlights were being able to see all three of our children, Nathan, Rachel and Matt.

Please pray for:

- ❖ Spiritual atmosphere for the students beginning class at the seminary in September. That they be motivated and driven by His Spirit.
- ❖ Our leadership as Directors of Europe’s Children. How we can best provide resources to missionaries working with children throughout Europe.

Thank you for your prayers and support,

Steve + Tece
