May 2018

Honoring a Hero!

Rev. Billy Glover was a hero in our eyes. He and Nancy are our Spiritual leaders- we were saved under their ministry and often told them that they rescued us from the pit and refused to let us get back into it! They adopted our family from the first day and remained dear friends through life. God help us to learn to love and care for people as they did!

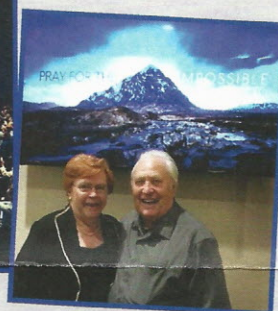

Hard Places Prayer

Barbara has been asked to host a prayer group for reaching people who are living in the hard places. They are people that Jesus died for, and no place is too hard, too far, or too expensive for the love of God to be able to reach them.

Alabama District Council 2018

The wonderful Spirit of God was present in the services, such a refreshing time for everyone who attended. We were blessed to see so many of our Pastors, friends and Ministry supporters. God bless you all!

The Bookshelf

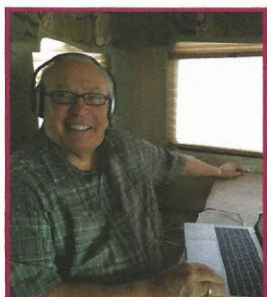

"Is your Church operating from a God given Holy Spirit inspired vision? Does the vision of your Church create a culture inside the Church that penetrates the culture outside of the Church with the Gospel?"

Wow some inspiring thought!
Hope you are blessed with this one.

Coaching Calls

Tom is currently working with our US Missionary Church Planters as they renew their Missionary Appointments for another four-year term. Each of these dedicated

Missionaries will be making strategic plans for their next term of ministry. Pray with them for God's guidance and for Tom to have wisdom and Spiritual discernment to help them.

Springtime in Alaska

May 18 with fresh snow on the mountain and some leftovers in our back yard! But summer activities are getting into full swing! Please pray for Little Beaver Camp and Lone

Eagle
Royal
Ranger
activities
to reach
kids.
