

Hello Parents,

I'm so excited to start a new year with you and your child. I strongly believe that each person is created by God, perfectly for the tasks He has planned. All of the gifts and talents that are necessary to do the job God has for him or her, are already in the plan. No one is too slow, too tall, or too anything. Each child is a blessing from our God who only gives good and perfect gifts. So, in other words, I love teaching because I get to discover the precious gifts God has put in your child.

My goal is to help children understand new academic concepts, challenge them to be responsible to complete and turn in work on time, and most importantly teach them to love God more. The more they know God, the more they will want to know. His love is so encompassing and encouraging.

Please be diligent in having your child read every day. I would strongly encourage your child to practice simple math addition facts and multiplication facts on a daily basis as well. A fun way to do this would be to visit eduplace.com or mathdrills.com.

I look forward to getting to know you better and seeing the good that God has created in you and your child.

Sincerely,

Mrs. Rodriguez
