

Leadership Meeting

January 14, 2019

Members Present: David Sewell, Trey Laverty, Ben Wells, Bart Greer, Doug Taylor, Bryant Sebastian, Anna Jackson

Staff: Zack Holder, Craig Woody

Staff Updates:

Craig provided an overview of the new management system, Planning Center, and the features that are available. This tool will be beneficial for attendance, check-ins, tithing, etc. This system will make it much easier to keep accurate records of members and attendees. It will also improve communication systems within the organization. There will be a soft launch of the tool this spring to work out issues with the intention of a full roll out in the fall.

Josh Wilson will be coming on February 18th. Tickets will be sold at \$10.00 each.

Financial Peace will begin on February 10th. It will be led by the Hesters. Cost of the course is \$129.99.

February 3rd we will have a Lord's Supper followed by a communal meal which will be a fund-raiser for the youth going to Germany this summer. We will spotlight the GO portion of our work and commission those who will serve in missions over the summer.

Stewardship:

The financial statements were presented. Balances are holding steady. We hope to continue to build balances. Members are reminded the importance of giving to support the ministries of the church. The budget has some drastic cuts in some areas as we align expenses to income.

Personnel:

2 new members have joined the committee and will be working with staff to continue job descriptions and expectations.

Deacons:

Deacons will meet Sunday at 4:45. They will be sharing exciting information about some opportunities to participate in discipleship for men based on a curriculum. (A women's version will be coming soon.)

Go:

Zack and Doug will be discussing possible mission opportunities for the future and establish a common vision.

Grow:

An initial team met in January and identified key areas of discipleship. The team then rated the areas and identified some areas to target across the board.

Life Groups began their kick-off celebration on Sunday and will resume meeting in homes on Wednesday. Volunteers for leading and host homes are always needed.

Properties:

The committee continues to investigate opportunities to utilize the space that exists and create new space. The process has been slow.

There continues to be a discussion on how to solve the drainage problems that exist on the west side of the building.

Serve:

VOMO is sending a video to help with a launch. Everything is uploaded. Will be sharing soon with the congregation
