The Book of Revelation is a mysterious book of the Bible, filled with vivid images of strange creatures, celestial beings, puzzling numerology and dazzling cities. Yet, for some, the treasures of this book are subverted by our lack of familiarity with the genre of the book or our hesitation to engage its complex message. Nevertheless, I want to invite you to our Summer Bible Study on what has become my favorite book of the Bible. Revelation is a book about hope. It's pages bleed hope. It's message proclaims hope. It is valid today as it was for those who first heard it uttered.

Over the course of the Summer, we will study the book in depth, engaging its vivid symbolism that unveils the last Word about all things. We will use Dr. Bruce Metzger's curriculum, Breaking the Code, as a guide. Dr. Metzger taught New Testament at Princeton Theological Seminary and presents information in a clear and accessible manner.

Though the study guide is not necessary, you may purchase one for $7 from the church. I hope that you will make plans to join us on Wednesday Nights, beginning May 17 (concluding August 23) as we engage John's Revelation of Jesus Christ!
