

Today  
the Spotlight is on  
**Mackenzie Scott**  
FPC's new  
Nursery Coordinator

Mackenzie is in her Junior year in high school and has found this to be her most challenging year. Right now, upon graduation, she's planning to attend Northwest in Powell, at least for her first two years of college, because "it's cheap, close to home, and has a good nursing program." While still in high school, she plans to take classes at NWC to get a jump start on core courses.

English is her favorite subject; anything having to do with government falls into her 'least favorite' category.

Although Mackenzie was involved in a variety of sports when she was younger, once she started to spend more time as a wage earner - she's now a hostess at Zapata's - the *something* that had to go was sports. Mackenzie is still extensively involved in Rodeo, 4H, and FFA.

Her favorite author is Nicholas Sparks (author of *The Notebook*, etc.)

Mackenzie loves to be on the lake in summer, but her favorite summer occupation is showing animals at the Fair. One of the most challenging aspects of Showing is called the Round Robin, in which each participant (having won Champion in his/her field) must show, not only her own animal - for example, a horse - but also must show a market cow, dairy cow, goat, sheep, and pig. Obviously one is well-versed in the fine points of one's own beast, but each category comes with its own eclectic features. Mackenzie's advantage in such a competition is that she's close to, and has assisted, friends who show in different categories. Also, she's been around a variety of livestock all her life. Mackenzie's favorite animal? "I love cows," she says, "they have such great personalities."

How can the church family best support her? "Church people support me by attending the things in the community that I'm involved in." And how might she better support her church family? "by doing the things for the younger kids that the church does for me; also, encourage the younger ones to get involved in church activities."
