Youth Pastor Candidate

by Trevor Waybright

The Elders are very excited to announce that we have an official candidate for our Youth Pastor position! We interviewed several qualified individuals and through a process of persistence and prayer, felt that we found a person who has the potential to be a great fit. We know he will help us develop a Youth program that will be both a great blessing now and a solid foundation for the future for our kids and families. We're happy to introduce you all to Jason Frye and his family:

Jason and Lisa have been married for 28 years. They have three grown children; Robyn, who is married to Dustin and lives in Spokane, WA, Rachel, who just graduated from Cedarville University, and Ryan, who is a senior at Cedarville University. They currently live in Chillicothe, Ohio where Jason is a missionary with InFaith and has served as the NE regional field director for 3 years. He has been in vocational ministry for over 25 years including over 20 in student ministry. He holds a bachelor's degree in Bible and Theology with minors in Youth and Worship ministry from Multnomah

University in Portland OR. His wife, Lisa has been a high school science teacher for more than twelve years. She is more than halfway through her continuing education degree in leadership and curriculum development. When describing his family, Jason said, *"For us, ministry is our life. We see all that we do, from missions to pastoring, to public education and our family as ministry. It is a joy to see all three of our adult children engage in ministry in their own ways. Most of our work has been with teens. We see teens as the hope and future of the Church. We believe the Gospel is still very relevant and we have given much of our lives to teaching, inspiring, and modeling it to our young people."*

We will all get a chance to get to know Jason and Lisa more as they officially candidate for the position. Jason will be here from November 14th-24th and Lisa will be here from the 20th-24th. Stay tuned for more information concerning the schedule for the candidate process, and please pray with us as we all seek to further discern God's will.

kidztown/youth

kidztown

by Joy Waybright

Here we go! Heading straight for the holiday season. Can you believe we are here already? Thanksgiving is just a few weeks away and Christmas...wow. I would have never thought we would still be living in COVID times for the holidays. But since we are, we are ready to jump right in. I have to admit, my thinking has been *"we'll do (insert ideas) until COVID is over"*, but not anymore. We are giving it 110% for our kiddos.

For November, it isn't surprising that our theme centers around being thankful. Our older kids will be using the theme:

We have a graffiti wall set up for our kids to be reminded each week of what they are thankful for and share it with others. Feel free to head up to the Fellowship Hall and share on our wall what you are thankful for too!

Our tiny tots are also learning to be thankful using a "thankful tree". This month we have added a new video series for our youngest kiddos so they can learn more about Jesus on their own level. Check it out. It's going to be a great month!

Thank you so much to our volunteers who are willing to help in Kidztown during this crazy time. We have enough volunteers just to get by and have no subs. If you are a regular volunteer (pre-covid) or maybe never volunteered, we could use your help. Maybe you would be willing to help temporarily until things change, please let me know. I would love to chat with you about getting a background check and helping out! (joy@foundrybend.org)

youth ministry

by Joy Waybright

Our Middle and High School teens are meeting each week on Monday nights. The middle school starts at 6:30 and goes until 8:00pm. The high school starts at 6:15 and goes until 8:30pm.

Our Youth Pastor candidate, Jason Frye, will be joining our youth group meetings on November 16th and 23rd. Parents, be watching your emails for important meetings with Jason as we move forward. We are praying for guidance and wisdom as we proceed with this next step in our ministry.

If you have any questions about this or any youth related matter, please contact Trevor for middle school and Mark for high school.

health ministry

For the Guys

By Becki Doden

Alright guys, this month I'm talking to you. Time to grow your mustache... It's Movember.

Our fathers, husbands, brothers, sons, and friends are facing a health crisis, yet it's rarely talked about: men are dying too young. We cannot afford to stay silent anymore; men's health is in crisis for largely preventable reasons. Unchecked, they predict prostate cancer rates will double over the next 15 years. Globally, testicular cancer is the most common cancer among men aged 15-39 years of age. Men, know your numbers! At the age of 50, talk to your doctor about prostate cancer and whether it's right for you to have a PSA test. If you are African American or have a father or brother with prostate cancer, you should be having this conversation at 45. (Women, it's ok to "nag" the guys about this one). Also, educate yourself about testicular cancer. This is the most common cancer of men under 40. Besides having an annual exam performed by your health care provider, men also need to perform monthly self-exams. If something doesn't feel right, call your doctor. Across the world, one man dies by suicide every minute of every day, with males accounting for 75% of all suicides.

To complicate matters, going into the holidays during a pandemic with events and family gatherings being canceled is only going to exacerbate feelings of loneliness throughout the holidays. Here are five things we can all do. (Gals, we need to pay attention too.)

First and foremost, we need to spend time with people who make us feel good. Of course, with COVID-19, we need to be mindful of precautions, but make sure you are staying connected. Family, friends, and life groups are important and spending time with them is good for us. Try to catch up regularly whether in person or via phone or Zoom. Having a set day and time can help ensure you are checking in. This may sound redundant but another thing we all need to do is talk more. Just because two people are meeting, does not mean they are truly reaching out. A person doesn't have to be an expert or the sole solution but listening can be lifesaving.

This is a two-way street: we need to listen but we also need to talk. 70% of men say their friends can rely on them for support, but only 48% say that they rely on their friends. In other words: we're here for our friends, but don't ask for help for ourselves. Reaching out is crucial. Just like Pastor Trevor said in his sermon about King David's Mighty Men, many of us are good at "hiding in plain sight". Having someone to talk to is invaluable. If you don't

feel that you have a safe person, please reach out to the Foundry Ministry staff, the Health Ministry, or ask to join a Life Group. Get your Mighty Men (or Mighty Women)! Last, but not least, we all need to move more! Add more activity to your day and do more of what makes you feel good. Walking outside appears to be a COVID safe way to socialize. You can also park further away from the store entrance, use the stairs instead of the elevator, or cycle to work instead of driving. If you need other ideas or tips on how to stay more active, please reach out to the Health Ministry Team. I will always be here to help you get creative and come up with ideas to stay active and healthy.

Let's all get serious about our mental health. Gals, let's advocate for the men in our lives. And guys, make your health a priority and put away your razors for Movember. And hey, if your mustache doesn't look good, just wear a mask to cover it up.

For more information on men's health, please visit us.movember.com

OPERATION CHRISTMAS CHILD

Shoebbox Collection day is, **Sunday November 22nd**. It's not too late to put your shoebox together for children in need across the globe. Contact Annette for more information, 541-388-2002.

stories from the fires

Stories from the Fires
By CBNorthwest

CB Northwest has been astounded by the generous response from churches and individuals to our call to give towards our Reachout Fund for wildfire relief. By God's grace, we have received over \$100,000! As people are literally sifting through the ashes after the recent wildfires, we are hearing story after story of how God is providing for those that lost everything! Recently, we

heard of a story of how First Baptist Lakeview was able to help an elderly woman who literally escaped the wildfires with only her life and her cat. Everything else is gone. With no family nearby, this woman is temporarily living with another couple in their church. FBC Lakeview was able to provide a financial gift to this woman to help her with some initial costs of starting over.

McKenzie Bible Church in Lyons shared, "The outpouring of help, empowered by the prayers of God's people and the generosity of individuals throughout all parts of the country, has been instrumental in providing a sense of hope and security to those

who lost homes." MBF has been able to help families find temporary housing and provide funds to families as they have to stock their temporary homes.

These are just a couple of ways gifts like yours are helping serve those in need. We have identified a number of churches that we will distribute 100% of these funds to so they can in turn bless the families in the churches and communities that were affected by the fires. We have ended this giving campaign now and want to express our deepest gratitude for your extreme generosity. Your response has been a beautiful picture of what it means to be in covenant community.

global missions

Warm greetings to you from the faculty, students and workers on the campus of Western Uganda Baptist Theological College. We trust that you and the entire Foundry Church Missions team are experiencing the goodness of the Lord as you serve Him.

We at WUBTC are grateful to the Lord for His continued upkeep over each one of us during the continued Covid-19 crisis. This far, the families of our teachers, students and workers remain well despite the threat posed by the Corona virus. We have also received plenty of rain this season and our banana farm is looking nice and green and producing much fruit.

Our God is faithful in all.

We are also grateful to Foundry Church for the prayers and financial support to us during the current crisis. We are able to keep our teachers encouraged, our students well fed and our workers supported as you give towards our cause. May the Lord continue to increase your resources as you share them with us.

To-date, schools in Uganda are still inoperative as a preventive measure against the spread of the Corona virus. However, and with very strict Standards of Performances, finalist classes have been allowed to get back to their schools mid October this year. Even when our College qualifies for this, we have seen it wise to get better prepared so as to start our classes in the first week of February, 2021.

Meanwhile, we are gearing up for the recruitment of new students in the third week of November this year. We will appreciate your prayers for us in this exercise as we aim to reach out to quality prospective students who will have the desire for ministry as they come to our College.

As an improvement measure for the quality of teaching we desire for our College, we are looking forward to sharpening our teachers so that they can embrace online teaching and be able to comply with instructions laid out by Uganda's Ministries of Health and Education.

We thank God for using you to keep us focused on what He has called us to do; preparing men and women for ministry as Paul wrote in 2Timothy 2:2.

In Christ
