CHURCH LIFE

FRESNO ADVENTIST ACADEMY STUDENT REVIVAL

Starting Monday, November 2 at 7:00 p.m., FAA will begin student-led revival meetings in their gym. Having gone to this series last year, I can tell you from personal experience what a blessing it is to hear the students share their faith. The meetings will run each night and conclude with worship service on Sabbath at the Academy.

A dinner will be sold by the Senior class each night beginning at 6:00. All of the proceeds will go to help the Seniors fund their mission trip to Cambodia. Free childcare provided each night.

The following is a list of the speakers along with their topics:

Monday: "Righteousness by Faith" — Juliana Rickard & Brianna Johnson

Tuesday: "Great Controversy" — Leslie Lopez & Christiana Kerbs

Wednesday: "Creation" — Alex Kurts & Ashley Harris

Thursday: "Prophecy/Second Coming" — Andrew Hakobyan, Robert Philpot, & Nathan Martin

Friday: "Sabbath" — Katie Shelley & Emily Tymn

Sabbath: "Death/Hell/Resurrection" — Blake Johnson & Amie Shelley

Please plan to come out and support your students as they share Christ.

Blessings,
Pastor Tom

HEALTHY BYTES

Natural Ginger Ale (adapted from Wellness Mama blog)

How to make natural ginger ale a healthy and delicious treat full of probiotics and enzymes. This is like the Sourdough, it takes time, but is very easy and your body will thank you for it. A naturally fermented old-fashioned ginger ale (also once called Ginger Beer) that contains beneficial probiotics and enzymes.

Ingredients:

- A 1-2 inch piece of fresh ginger root, minced. Adjust this to taste.
- ½ cup of organic sugar or rapadura sugar (if using plain sugar, add 1 tablespoon molasses for flavor and minerals).
- ½ cup fresh lemon or lime juice
- ½ tsp sea salt or himalayan salt
- 8 cups of filtered (chlorine free) water
- ½ cup homemade ginger bug (see Ginger Bug recipe)

Instructions:

Make a "wort" for your ginger ale by placing 3 cups of the water, minced ginger root, sugar (and molasses if needed), and salt in a saucepan and bringing to a boil.

Simmer the mixture for about five minutes until sugar is dissolved and mixture starts to smell like ginger.

Remove from heat and add additional water. This should cool it but if not, allow to cool to room temperature before moving to the next step.

Add fresh lemon or lime juice and ginger bug.

Transfer to a 2 quart glass mason jar with a tight fitting (air-tight) lid. Stir well and put lid on.

Leave on the counter for 2-3 days until carbonated and transfer to the fridge where it will last indefinitely. Watch this step carefully. It should bubble and should "hiss" like a soda when the lid is removed. This is very temperature dependent and the mixture may need to be burped or stirred during this fermentation time on the counter.

As with any traditional fermented drink, it is more of an art than a science as it depends on the strength of your culture, the temperature of your house and the sugar used. The final mixture should smell of ginger and slightly of yeast/fermentation and should be fizzy. Watch carefully that it doesn't become too carbonated as this will cause too much pressure and may result in an exploding jar!

The mixture can be strained and transferred to flip top style bottles before putting in the fridge. Strain before drinking.
