

"A Mother's Cry For A Lost Daughter", was the first sentence in a prayer request to our "prayer chain ministry", from a mother attending our church here at Fusion. She continued on to say that her daughter Annie was living in a very bad situation, and that some very difficult things were happening in Annie's life, and how much she needed God's intervention.

A few days later the mother, with a beaming smile on her face, told us that God had amazingly intervened. He had removed Annie from the terrible situation she was in and how so many things have changed in Annie's life. Her words were, "Annie is doing so good in so many ways, things have really turned around in her life". We are all so grateful for God's work in Annie's life.
