

Eric's Testimony

I was 14. I thought I had my whole life ahead of me. Then one summer day in July, a farm accident changed my life. My world as I knew it had been turned upside down. My life flashed before me when I got caught in that power take off of the tractor. My father who was nearby immediately ran over to the tractor to free me from it. However in just a few seconds my body had experienced severe trauma. As I laid there bleeding profusely, I realized that I was unable to move my entire right arm. It was at that moment, I questioned would I live or die. It took that near fatal farming accident for God to get my attention. I knew I was unsaved and in need of a Savior. It was simply by God's grace that my life was spared. Not only did God heal my physical body, but most importantly He saved me. When I think about you Lord, I realize, you are worthy of all the glory, and all the honor and all the praise.
