

Do you need hope?

If you have picked up this brochure you are probably facing a difficult situation right now. But where do you turn? Nothing seems to be working and with each passing day things only seem to be getting worse. Perhaps you're wondering if things can ever really get better. Maybe you're wondering "Can I get through this?" or "Is there any hope for me?"

If you find yourself asking questions like these, know that with God all things are possible. Hope starts by doing things Gods way. That's where biblical counseling could help you and have a huge impact on your life.

What is biblical counseling?

Biblical counseling uses God's Word to address all of life's problems. It is used to provide instruction, correction, encouragement, and hope for each counselee and the situations they are currently facing.

Why biblical counseling?

We believe our Creator knows our hearts and understands our problems far better than we know ourselves. We also believe His Word provides practical life changing solutions that are far superior to anything the world has to offer.

What problems do we address?

We help people with a wide variety of problems such as marriage counseling, parenting issues, addictions, sexual sins, anger, depression, worry, financial problems as well as many other areas.

What can you expect from us?

You can expect to be helped by well trained counselors who are dedicated to providing you with Biblical solutions in a compassionate manner. You can also be assured of strict confidentiality except when there is a biblical requirement to involve outside help. (Example: criminal activity).

What will be expected of you?

We ask three things from all of our counsees. First, we ask you to be completely truthful about your current situation. Second, we ask that you show up on time each week with all of your homework completed. Finally, we ask that you give us enough time to adequately address your problems. Bad habits are often formed over a period of years. Therefore, developing new healthy habits could require several weeks.

What is the cost?

Grace Community Church and our counselors provide their services free of charge. However, out of respect for our staff we require a \$25 deposit which is forfeited for last minute cancellations. If a counselee leaves or graduates from counseling without a cancellation, the deposit will be returned.

How long does the counseling process last?

Typically, most counsees will attend weekly sessions for a duration of 10-14 weeks, although some situations might require fewer meetings.

How can I make an appointment?

Call Grace Community Church at 740-333-5433 to receive a counseling packet. After your fill out and return the necessary forms we will set up an appointment for you to meet with one of our counselors.
