Name (please print) _____ Title _____

Signature _____ Date _____

Definitions:

Domestic sewage means human wastes and used water from household operations, mostly coming from kitchen, bathroom, and laundry sources, that are discharged to or enter the sanitary sewer.

Hazardous waste is as defined in title 40, part 261, of the Code of Federal Regulations (see <http://www.ecfr.gov>).

Process wastewater means any water which, during manufacturing or processing, comes into direct contact with or results from the production or use of any raw material, intermediate product, finished product, byproduct, or waste product.
