

The LPPC Earth Care Fellowship (LPPC ECF) is proud to announce that Las Placitas Presbyterian Church has been certified as an Earth Care Congregation by the Presbyterian Church USA Environmental Ministries program. The Environmental Ministries program is part of the Presbyterian Hunger Program. To achieve this certification, the LPPC Earth Care Fellowship completed an audit of our earth care actions (past and current), scored each action (as defined by PC USA) and entered them into an application. Then the application was submitted to PC USA Environmental Ministries for consideration.

Each action represented past and current hard work that many members of our congregation have performed, not just those on the LPPC ECF. The actions represented a wide range of activities such as installing solar panels, conducting earth-themed services, picking up litter along our mile of highway, creating a recycling program, re-using materials through Casa Rosa, and many more. Therefore, this designation belongs to the entire congregation. Congratulations

Don Turton (right) of the LPPC Earth Care Committee presents Carl Allen, Clerk of Session, the official certificate that states LPPC has been certified as an **Earth Care Congregation by the Presbyterian Church USA Environmental Ministries program.**
