

WHO

Youth + adult teams as well as adult only teams are invited. An adult to youth ratio of at least 1:6 is required. WARM's minimum age is 16 for most projects. Cape Fear Habitat for Humanity's minimum age is 14.

People of compassion of all skill levels are welcome. Those with expert construction skills are especially needed. Because this is a partnership of several organizations, we are able to work with large groups.

WHEN

Mission experiences are offered throughout the year. Weekends, long weekends, and full week trips can be scheduled. Please schedule as far in advance as possible, but at least one month ahead. *Note:* The summer months book up fastest. So plan early.

WHERE

Spend a few days serving others and a day enjoying the natural and historic attractions of the Cape Fear Region, which includes Brunswick, New Hanover, and Pender Counties in Southeastern North Carolina. For more information, see www.wilmingtonandbeaches.com

- Beautiful Beaches
- Battleship North Carolina
- Venus Flytrap Park
- Riverboat Cruises
- Museums and Festivals
- Historic Downtown Wilmington

HOW

Begin planning your service by the sea by contacting WARM, Inc.

SERVICE BY THE SEA

MATTHEW HOUSE

Lodging for Mission Teams

Christian agencies in Southeastern North Carolina are coming together to help you plan your next mission trip

Wilmington Area Rebuilding Ministry, Inc. (WARM)

Founded by the Wilmington District of the United Methodist Church, WARM makes homes safer for elderly, disabled, and other very-low income homeowners.

Projects include wheelchair ramp construction, floor and sheetrock repair, window and door replacement, appliance installation, and electrical and plumbing repairs. www.warmnc.org

Cape Fear Habitat for Humanity: A Brush with Kindness

Historically known for offering homeownership opportunities through new construction and no-interest loans, Habitat has expanded its services to include revitalizing existing homes.

A Brush with Kindness focuses on exterior painting, landscaping, and minor repairs. These exterior improvements enhance the entire neighborhood! www.capefearhabitat.org

We work together to make it simpler for you!

Together, we will help you to determine which projects are right for your team, according to:

- Skill level
- Interest
- Schedule
- Team size

Technical supervision is available.

A donation of \$25-40 per person per work day is suggested but not required. Donations will help purchase building materials.
