

Beyond Church Electronic Giving FAQs

Beyond Church is excited to announce our new online and mobile giving platform, Push Pay. All past, present, and future donors/givers will utilize this system when giving to Beyond Church through our mobile app, website, and text-to-give. Below are some FAQs. If you have further questions, please email: landon@beyondchurch.org

I give online, what does this mean for me? Do I have to change a bunch of stuff?

The changes are minimal. The online giving link is still in the same place, on our website and app. Upon using Push Pay for the first time, you will be asked to enter your payment information. After that, you will enjoy the simplicity and speed of giving, including the new text-to-give functionality.

When will Push Pay be our new giving processor?

Push Pay is currently active and accepting gifts and donations on our website and app. If you enjoy giving from your phone, simply text **beyondgive** to 77977.

Why Push Pay?

With Push Pay, we anticipate a better user experience, faster and simpler electronic giving, lower processing fees, a cohesive user experience with our new church app that will be coming later, and a simple text-to-give functionality. Overall, we believe it's better for everyone!

What will happen to Clover?

Clover, our former processor, will continue to remain active during this transition. We will be discontinuing the Clover processing system by the end of June. Any active users in the Clover system will be notified and assisted to transition to Push Pay before we discontinue it.

Can I still access my giving records through Clover?

If you would like to save your giving records, we encourage you to login to your giving account and save your transaction history. Our financial department will include ALL giving when sending your giving statement at year-end. The only need for you to save transaction history is if you need a record of each transaction

Sometimes my cell signal in church is poor - can I still text to give?

Our Push Pay giving link is easily accessible on our website and smartphone app. If your cellular signal is poor, feel free to connect to our free Guest Wifi and give through the link on our app or site!
