5. Determine an opportunity cost and benefit analysis while thinking at margin.

PA Standards/Anchors: Eligible Content:

6.1.12 A,B,C,D

- Explain why scarcity and choice are basic problems of economies.
- Identify the factors of production.
- Explain the role entrepreneurs.
- Describe trade-off and opportunity costs.
- Explain how people make decisions thinking at margin.
- Demonstrate how the production possibilities curve shows efficiency, growth, and cost.
- Understand that a country's production possibilities depend on its available resources and technology.

Course Title: Economics  
Time Allotment: 5 days  

Topic/Concept: Types of Economic Systems (Chapter 2)  
Unit Sequence: 2.

Major Concepts to be learned:
1. Understand the differences in economic systems  
2. Understand the reason for government involvement in an economy

Expected Skills to be demonstrated:
1. List the three basic economic questions.  
2. Explain the characteristics of traditional, command, market, and mixed market economy.  
3. Analyze a circular flow model for the market and mixed market economies and identify the problems of a command economy.  
4. Compare mixed economies on a continuum

PA Standards/Anchors:  
6.2.12 A,B,C,G  
6.3.12 A,B  
6.4.12 A  
6.5.12 A,B  

Eligible Content:  
• Distinguish between the different types of economic systems  
• Understand the need for markets  
• Analyze a command economy  
• Explain the rise of mixed markets and understand the role of free enterprise in the United States economy

Course Title: **Economics**  
Time Allotment: **8 days**  

**Topic/Concept:** Demand (Chapter 4)  
**Unit Sequence:** **3**

**Major Concepts to be learned:**

1. Understand the law of demand.  
2. Understand the major shifts of the demand curve.  
3. Explain elasticity of demand and explain how firms use elasticity and revenue to make decisions.

**Expected Skills to be demonstrated:**

1. Read, graph, and interpret a demand curve from a demand schedule.  
2. Explain the slope of the demand curve using substitution effect, income effect, and diminishing marginal utility.  
3. Understand how income, future price, population, tastes and advertising, substitutes and complements can cause the demand curve to shift.  
4. Calculate elasticity of demand.  
5. Analyze how substitutes, necessities, luxuries, income, and time are factors of elasticity.  
6. Calculate revenue and determine how the change in price effects of elasticity of each item.

**Eligible Content:**

- Explain the law of demand.  
- Understand how the substitution effect and income effect influence decisions.  
- Understand the difference between changes in demand from a change in price and changes in demand as a result of a shift in the demand curve.  
- Explain how to calculate elasticity of demand.  
- Determine the factors of elasticity.  
- Determine how revenue is influenced by elasticity.

Topic/Concept: Supply (Chapter 5)  
Unit Sequence: 4

Major Concepts to be learned:

1. Understand the law of supply.
2. Explain elasticity of supply.
3. Identify the causes that will change supply.
4. Understand the role of the government in changing supply.

Expected Skills to be demonstrated:

1. Graph and read a supply schedule.
2. How changes in supply are affected by changes in production and market entry.
3. Determine the sensitivity of supply to price.
4. Understand how input costs, technology, future price, inflation, and the global economy alter supply.
5. Determine how a change in government policies with a subsidy, excise tax, regulations, and import restrictions will influence supply.

PA Standards/Anchors:  
6.2.12 B,C,D,F  
6.3.12 B,D  
6.5.12 D

Eligible Content:

- Understand the law of supply.

Course Title: **Economics**  
Time Allotment: **6 days**  
Unit Sequence: **5**

**Topic/Concept:** Price (Chapter 6)

**Major Concepts to be learned:**

1. Explain how supply and demand create balance to the marketplace.
2. Analyze the market when in disequilibrium and make adjustments with prices to bring the market back to equilibrium.
3. Identify and analyze how the government intervenes in the market.
4. Explain the role of prices and profits in a free market.
5. Evaluate the price-based system and alternative systems.

**Expected Skills to be demonstrated:**

1. Read a market supply–demand schedule and graph to determine equilibrium price and quality.
2. Graph shifts in supply and demand that cause shortages and surpluses.
3. Make adjustments to price to avoid a shortage or surplus condition.
4. Understand when price ceilings and floors are effective and when they have no effect on the market.
5. List the advantages of prices: Prices are incentives, flexible, free. Prices provide a standard of value.
6. Compare command economies, rationing, and black markets to the price-based system and understand the role of price as an incentive.

**PA Standards/Anchors:**

| 6.2.12 B,C,D,F | • Understand how shifts in supply and demand cause shortages and surpluses. |
| 6.3.12 B,C,D | • Know how prices change when the market experiences a shortage or surplus. |
| 6.5.12 D | • Distinguish between a price floor and a price ceiling and analyze the impact of each |

**Eligible Content:**

- List the advantages of a price-based system and understand how the price-based system leads to a wider choice of goods and more efficient allocation of resources.
