“great kids”

This morning when I arrived at MVA, I noticed someone in a yellow vest sitting in a chair in front of the school. A few minutes later I had the time to head over and talk to the person. He was counting cars. The city of Mountain View is looking at street crossing safety in front of Mountain View Academy and several other schools in the area. While in conversation our traffic recorder surprised me just a little. After only 30 minutes of observing in front of MVA, he complemented the school on our students. This gentleman has the opportunity to travel around the Bay Area and has been in the vicinity of many schools. Yet he could easily note the positive differences in our students. We have good kids. You have good kids. Sometimes we forget that and become too critical. But someone looking from the outside in can easily see it. Thank you for your support of MVA as we educate your great kids!
