

Every action has consequences on other humans and on the earth.

Start the year off with a renewed emphasis on spiritual disciplines, including environmental. Read Genesis 1 and Psalm 24, then prayerfully consider the promise below.

I pledge to educate myself and become aware of the outcome of my actions, reduce my negative impact on others, and walk lightly on the earth.

I will try harder to reduce, reuse, and recycle resources.

I will respect God's creation and help protect it.

I will encourage others in their environmental spiritual discipline.
