John & Janice Jenkins

Ministry Focus:

John & Janice serve with Wycliffe Bible Translators in Cameroon but their work extends into six surrounding countries and this next term our roles will be expanded to cover the continent of Africa. Cameroon has about 16 million citizens and 289 languages. Eighty of those languages have the Bible translated and we are currently working on seventy additional translations. Having the Bible translated into the heart language of the people is essential to reaching them through evangelization and church planting. The Jesus Film is also translated through our work.
