Why EE?

Becoming a skilled pilot not only takes class work, but on-the-job training as well. It's the same with evangelism. Unfortunately, too many evangelism courses are all class work with no practical witnessing experience. Evangelism Explosion Leadership Training gets you "in the air" with skilled Trainers who go out into the harvest field and share Jesus' saving story confidently and completely. You observe. You learn. Then you participate incrementally until you've mastered, and shared the Gospel with others.

July 10th - 18th		NYC	NYC Mission Trip Dates

It is very important to weigh the cost of serving on mission. There is much hard work that goes into preparing to go on a mission like NYC. There is also great reward. To pray, prepare and share the Gospel with thousands of people in New York City is a great call. It is my desire that every leader and student filling out an application for missions will spend time in prayer, asking God if He is leading them to go on this trip. It is also very important to look at the plan and schedule to be sure you are ready for that commitment. Team practices are not just about learning illusions, puppets, drama, or how to setup a sound system. They must take priority above jobs or extracurricular activities. Be sure that as you sign this application, you are ready to put your best effort into doing the work of our King. Also be sure to have communication with your family as they will share in your efforts and rewards. I will promise you that if we make this commitment as a team, we will see God magnified and the eternal reward will outweigh our efforts. I will commit to praying along with you as you fill out this application.
