

Taking the Next Step...

from vision to victory!

Once we arrive at our current situation we immediately face a quiet crisis. Will we succeed in the next set of challenges or will we fall by the wayside? Progress requires we do a strange thing: toss out most of what got us here and do things differently! We need to grow toward next level leadership. If we don't, we're heading for disaster. Bottom Line: what got us here won't get us there! This is true of individuals as well as institutions.

The key is learning to Take the Next Step!

This workshop will help us learn to anticipate whatever is coming Next. Too many times we choose to Think-Past, and wither in our current challenges because we rely on the skills and behaviors that served us in the past. Other times we wither because we get caught up in the urgency of the present... we plateau because we choose to Think-Present! This workshop will encourage us to Think-Next... to anticipate and Take the Next Step.

One of the last things God says in Scripture is, "Behold, I am Making All Things New." This alone ought to alert us to our ongoing need to Take the Next Step!

I hope you will join us!

Phil Claycomb
