

Connection Pointe Anderson, IN

Phase One of this 2-part construction project now provides a gym/fellowship area for the congregation and for the students of the church school. A large foyer provides access to the kitchen, restrooms, offices and gym.

In Phase Two of the master plan, the remaining three sides of the gym will be surrounded with an additional 4,000 s.f. of classrooms and offices for the Church School and for Sunday School expansion. The exterior finishes were designed to compliment the colors and materials used on the existing church facility at this site.
