God Still Calls Disciples

What is a disciple?

A student studies what a teacher teaches to learn things the student doesn't know. An apprentice works under a professional to learn how to do the same job. A disciple follows a master to learn to be like the master. A student learns information. An apprentice learns a task. A disciple learns the master's wisdom and ways, both what he knows and what he does.

Then a disciple goes out and lives out what he learned and teaches new disciples.

When Jesus left His disciples, after He had risen again, He told them to "Go and make disciples". And that means you.

The word Christian literally means "Christ follower". Jesus wants you to be His disciple! He wants you to learn how to love people the way He loved them. He wants you to introduce people to Him so they can start to follow Jesus, too.
