Christian Business Community

BUILDING FOUNDATIONS FOR FRIENDSHIPS

Christian Business Community is a group of people working together to share ideas, give encouragement, and build an authentic Christian community. These business owners are available to provide accurate information, and to help as an educational resource for those in congregation.

This is more than a networking group, they embrace the power of God's spirit at work in their vocation and daily lives, and desire to help the church and others through their donations of time, expertise, and gifts.

What is the Christian Business Community?

Meetings take place at various locations and times. Please call for specific details.

Special Projects are scheduled at various times of the year.

The Christian Business Community is for people of faith, who share in the journey of following Jesus Christ, to come together as business women and men. God's marketplace is in every facet of life, not just inside the walls of the church!

This group bonds together to support and strengthen each other and face the challenges we all face. This community encourages joy in developing Christ-centered friendships where ideas are shared, encouragement given, and authentic community developed. This is something more than networking, but about the power of God's Spirit at work in your vocation and daily life.

What happens at the meetings?

Independent business professionals come together for fellowship and to discover how their skills and talents can help both people from the congregation and community. The team works together on service projects for the church and the community.
