

March 16, 2016

Principal's Message,

Our prayers go out to the staff and families of Gardena Valley Christian School. We have recently learned the news of their closure at the end of this school year. We pray for God's continued direction and guidance as they go through this difficult time.

In an effort to provide support to the families that are affected by this closure, Pacific Harbor Christian School would be honored to invite the families of Gardena Valley Christian School to visit our school for a personal tour. We are also providing individual "Mariner for a Day" visits for students in grades K-8 that would like to come and visit the class of their current grade level, giving them the opportunity to meet our teachers, meet new friends, and really "feel" a day in the life of a student enrolled at Pacific Harbor. Our heart's desire is to support the family in providing a smooth, comfortable transition for their children during this time. We know that walking through this significant change can be difficult for the students and families of GVCS. Any support we respectfully extend them during this time.

We will also be extending a one-time registration discount for the upcoming 2016-17 school year to any GVCS students that register at PHCS.

Please feel free to contact the office at 310-835-5665 ex 221 to schedule your "New Family Personal Tour" or "Mariner for a Day". Our principal is able to be available for evening tours for families that are not able to make it during the school hours between 7:30am-4:00pm. The best time of day to complete a tour is when the students are on campus and learning is taking place so new families can see all we have to offer, but we understand with the demands of our busy schedules that is not always possible.

Feel free to also get to know our school by visiting our website at www.pacificharborschool.net and our school Facebook page "Pacific Harbor Christian School."

We look forward to assisting the families of Gardena Valley Christian School desiring to enroll their children in another Christian school that shares the same biblical values and principles GVCS has imparted in their families during their 50 years as a life-impacting Christian school program.

Blessings from our school family,

Mrs. Amie Gray, M.Ed.
Principal
