Westminster Woods Camp - New Office!

An outside view of the new office. The entrance to the office is through the double doors. Notice all the great windows that allow plenty of light inside as well as affording those inside a great view of the camp.

Inside the entrance is a beautiful area designed for small group conversations, meetings and work stations. The work stations along the west side of the office are equipped to ensure efficient work areas. Note the cute “bed springs photo gallery” along the south wall!

Along the east wall of the office is Diane’s work area. The size of the office affords storage, a printer with work table and a beautiful “L” shaped desk. Through the glass doors is Brian’s office. This office affords secure storage and Brian the privacy he needs to conduct the business of the camp. Some repurposed lights, doors and tables (found in storage at the camp) were used in the office decorating. They give the office a very warm and inviting atmosphere!

Along the north wall of the office is a beautiful oak cabinet previously housed in a railroad station. It provides a nice work & storage space.

The door in this picture connects the new office to the health room and kitchen.
