Khan Academy Instructions

Objective: To achieve “Mastery” level of all skills within the assigned mission for the class you have just completed during the 2013/2014 school year.

Step-by-Step instructions:

Go to khanacademy.org and login with your username and password. Most usernames are firstname.lastname and password restorationacademy. Email Wellon Bridgers at wbridgers@restorationacademy.org if you have difficulty logging in.

Note: Passwords may be changed and email addresses added by clicking on “Settings” under your username on the top righthand side of the screen. See here:

![Linked accounts](https://khanacademy.org/

Once you log in, it may prompt you to take a pretest. You are welcome to do this, as it can earn you additional points, though it is not necessary. On the top lefthand side of the screen, under the “Learn” tab, select the appropriate mission for the class which you have just completed. Specific missions are listed below. Please email Wellon Bridgers at wbridgers@restorationacademy.org if you are confused about which mission to select.

- 2nd graders (rising 3rd graders)
  - Mission: Early Math, includes 74 skills to be mastered
- 3rd graders (rising 4th graders)
  - Mission: 3rd Grade Math, includes 45 skills to be mastered
- 4th graders (rising 5th graders)
  - Mission: 4th Grade Math, includes 91 skills to be mastered
- 5th graders (rising 6th graders)
  - Mission: 5th Grade Math, includes 118 skills to be mastered
• 6th graders (rising 7th graders)
  • Mission: 6th Grade Math, includes 178 skills to be mastered

• 7th Grade Pre-Algebra (Mr. Sardin and Ms. Walker)
  • Mission: Arithmetic & Pre-Algebra, includes 232 skills to be mastered
• 7th Grade Pre-Algebra with a semester average of below 60% (Mr. Sardin and Ms. Walker)
  • Missions: 7th grade math (197 skills) AND Arithmetic & Pre-Algebra (232 skills)

• 8th Grade Pre-Algebra (Mr. Sardin and Ms. Walker)
  • Mission: Arithmetic & Pre-Algebra, includes 232 skills to be mastered
• 8th Grade Pre-Algebra with a semester average of below 60% (Mr. Sardin and Ms. Walker)
  • Missions: 8th grade math (198 skills) AND Arithmetic & Pre-Algebra (232 skills)

• Algebra I (Ms. Dykstra) and Honors Geometry (Mrs. Edwards)
  • Mission: Algebra I, includes 260 skills to be mastered

• Algebra II (Ms. Dykstra) and Honors Algebra II with Trig (Mrs. Edwards)
  • Mission: Algebra II, includes 126 skills to be mastered

• Geometry (Mrs. Edwards 10th and Ms. Walker’s 11th grade)
  • Geometry, includes 79 skills to be mastered

• Honors Pre-Calculus (Mrs. Edwards)
  • Pre-Calculus

Your screen may also look like this, and you can select the appropriate mission from here as well...
Note: While you are certainly welcome to hone skills that you may need from previous levels (such as Pre-Algebra Skills for Algebra I content), students will not get credit for mastering those skills only. The coaches have access to see the progress, skills mastered, time spent on content, etc. and will hold you accountable for the work appropriate to the level class which you have just completed in the 2013/14 school year.

Once your mission aligns with your class, you are ready to begin earning your badges! Each time you log on, it will save the work you have completed the time before and prompt you to the next skills you need to practice. By the end of the summer, you will need to have shown mastery of the skills for your class.

See additional information regarding earning badges, energy points, etc. here: https://www.khanacademy.org/talks-and-interviews/other-features/v/the-learning-dashboard
