## Sheet Music

All arrangements are within the intermediate level. Each piece of sheet music is printed on cardstock and is provided in two keys - both the keys of C and E<sup>b</sup> (front & back) This makes it possible for you to transition seamlessly from one song to the next without having to flip levers or move pedals.

Prices vary for sheet music, depending on copyright royalties paid and the number of pages in the publication.

All publications are available by visiting our website [simplytheharp.com](http://simplytheharp.com) or emailing [simplytheharp@comcast.net](mailto:simplytheharp@comcast.net) or by phoning us at (404)255-5543. ## Music Books

Each music book is available in two versions: one in C tuning and one in E $\flat$  tuning. That way, you can move seamlessly from one song to the next without having to change levers/pedals. As with all Simply the Harp publications, lever changes for accidentals are kept to a minimum. (Most songs do not have any.) For pedal harpists, the C tuning books are most popular.

-----

Each book in the **Lead Sheet Basics Series** includes lead sheets & lovely arrangements of 40/44 songs. In addition to the arrangements, there are instructions for using a lead sheet, examples of left-hand patterns, and worksheets for your own arrangements. Even if you don't make your own arrangements (yet), you'll find these books to be of great value - 40+ arrangements in each book!
