- The spiritual, social, emotional, intellectual, cognitive, language, and physical development of every child.
- Integrates play as the vital way children learn.

# Our Philosophy

We believe an early childhood program serves as an extension of the family providing education, nurturing and support toward the development of the whole child.

## Each Child:

- Is created in the image of God
- Is unique
- Develops at his/her own rate
- Processes different experiences and abilities to learn
- Learns best through hands-on experiences

## Each Teacher:

- Is carefully selected for educational qualifications and  
experience in the early childhood field
- Serves as a Christian model
- Guides and facilitates the natural development of the child
- Works cooperatively with parents
- First Aid and CPR Certified
- Participates annually in early childhood conferences and courses
