

StageStruck: The Young People's Own Theatre
FINANCIAL ASSISTANCE - SUMMER PROGRAMS

StageStruck has always made every effort to keep fees low. The fees differ with each program, ranging from \$35 to \$200. Even a \$75 registration for our musical premiere production would average out to be about \$1.00 per day! When one considers the professional instruction provided, that is quite a bargain. The fees may be so small for some productions that financial assistance may not be offered. Whether a young person is on scholarship or not, each family is expected to serve on at least two committees for the production, if applicable (Premiere & Fall shows).

Below is the policy and procedure for applying for a scholarship.

Fees:

* The Studio Manager/Producer(s) will make every effort to receive at least 25% of the tuition as a deposit for summer registration.

* If there is a need to pay fees in increments, permission must be obtained from the Studio Manager/Producer(s) of the program. All remaining balances, after scholarship (if awarded) are due on the second day of the summer camp, unless payments have been worked out with the Studio Manager/Producer(s).

Scholarships Criteria

These scholarships are based on need. Any number of children from the same family may apply. The Studio Manager/Producer may consult with the Board of Director's Scholarship Committee in making final decisions.

We ask that neither the scholarship recipient nor his family purchase such items as videos, individual cast pictures or other items considered "extra." The reason is that if there is extra money for these items, it should first be applied to the show tuition fee.

Neither the recipient of the scholarship nor his/her family may be a StageStruck patron for the year the scholarship is received.

Application for scholarship must be made in writing to the producer of the program no later than three days into the program.
