

November 3, 2016

It is with a heavy heart, yet resolute trust in God, that I write this letter to our faithful supporters of Adult & Teen Challenge of the Midlands. As you know, it was our desire to minister to adolescent boys through our Boy's Ranch in Alliance, Nebraska. Our team has been working tirelessly to open the doors, and offer hope to hurting youth and their families. However, after much prayer and careful consideration, the board of Adult & Teen Challenge of the Midlands has made the decision to close the Boys Ranch on the Oregon Trail in Alliance, Neb.

From day one, we were met with great community support in Alliance and the surrounding areas. We are forever grateful for the relationships that were formed, and the generosity of so many. However, due to licensing complexities and operating costs, we have made the business decision to focus our efforts on our existing adult ministries in Nebraska and Iowa.

It is our hope that the facility will continue to be utilized for a similar purpose. It is our intent to be in conversations with other non-profit, youth and Christian organizations to position the ranch for future success, and we will communicate the next steps as appropriate.

We want to offer a heartfelt thank you for the support of the community through this journey. Thank you for believing with us, and helping us spread the message of hope through Jesus Christ. Adult & Teen Challenge of the Midlands will continue to be a catalyst for change for those suffering from addiction.

Thank you for your continued support,

Warren Hunsberger
Regional Director
